"In the past, I faced many challenges in my business: inefficiencies, time delays, delayed payments, manual data entry and poor report presentation."

Why Formitize?

Formitize has become a valuable asset to the day to day running of my business – it is now our complete business solution. Formitize has completely streamlined the way our business operates and it is amazing value for money.

Right now I am using Formitize for Paperless Forms, Job Management, CRM - Customer Management, Accounting - Invoicing, Quotes and Payments and Reporting. I have integrated Formitize with my Xero account and it works very fluidly.

Easy-to-Use Business Solution

I find Formitize very easy to use as a Business Solution. Formitize support and customer service teams are very responsive and always very helpful. I give them a **10 out of 10**.

Formitize was amazingly easy to set up – we were up and running in no time with a lot of great features. It's a great solution that is simple to use and easy to understand.

I made the shift to Formitize because the other software I was using was very expensive and did not offer a full solution. I will definitely recommend Formitize to friends or colleagues.
